Response to Amendment

1. The Art Unit of U.S. Patent application SN 09/012,846 has changed. In order to expedite the correlation of papers with the application please direct all future correspondence to Examiner Turner, Technology Center 1600, Art Unit 1647.

Continued Prosecution Application

2. The request filed on 10-25-00 for a Continued Prosecution Application (CPA) under 37 CFR 1.53(d) based on parent Application No. 09/012846 is acceptable and a CPA has been established. An action on the CPA follows.

3. The amendment filed 1-25-01 has been entered into the record and has been fully considered. Claims 2, 5-11 and 23-27 have been canceled. New claims 28-45 are pending.

Election/Restriction

4. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 28-45, drawn to a method of treating hippocampal tissue, classified in class 424, subclass 198.1.

5. Claims 28 and 37-38 are generic to a plurality of disclosed patentably distinct species comprising OP-1, BMP2, BMP-5, BMP-6 and 60A. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the

Art Unit: 1647

examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

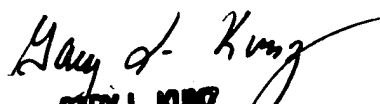

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
